- If for health issues, you can't do any exercise as I recommended, feel free to replace it with any exercise that is in the timetable
- You must do it every day consistently even if it's 5 mins daily
- It is better to do it 5 minutes daily than to do it 10 minutes three times a week
- You can do more than one exercise in a day if you want

- You can do some of the exercises I listed in this book but I didn't include them in the timetable
